## CERTIFICATES & APPROVALS

### Company certification and licenses in accordance with:

- ISO – 9001:2008 Quality certification.
- VCA\*\* 2008:05 Safe working admission.
- NEN-EN-ISO – 3834-2 International manufacturing approval.
- KIWA - approval Food and drinking water applications.
- PED 97/23/EG certificate Pressure vessels.
- CE certificate Equipment manufacturing.
- Licensed education company.

### Welding method qualifications:

- NEN-EN-ISO – 15614-1:2004 All (stainless) steel grades.
- NEN-EN-ISO – 15614-2:2004 Aluminum grades.

### Applications, up to 30 mm material thickness, supported by certificates:

- Aluminum, group 21 and 22.
- Stainless steel AISI 304, including L, LN, N.
- Stainless steel AISI 309, including L, LN, Ti.
- Stainless steel AISI 310, including L, LN, Ti.
- Stainless steel AISI 316, including L, LN, Ti.
- Stainless steel AISI 904L.
- Stainless steel 2205 Duplex.
- Stainless steel 2507 Super duplex.
- Stainless steel 254 SMO.
- Nickel alloy, including 200 series.
- Monel, including 400 series.
- Inconel, including 600 series.
- Hastelloy, including B3, hybrid-BC1, C4, C22, C22HS, C276, C2000, G30, G35, N.
- Titanium.

### Certified and approved welding processes:

- MIG both manually and automatically
- MAG both manually and automatically
- TIG both manually and automatically

### Welding quality department:

- Certified International Welding Technologist (IWT), qualified Master welder
- Certified Visual welding inspector
- Certified welders up to level 4, NEN-EN 287-1:2004 and NEN-EN-ISO 9606-2:2005 with PED certificate.
